

Lagos Campus

Total Net Lettable White Space: 7200 sqm

Total IT power: 14.5 MW

HYPERSCALE EXPANSION PROGRAMME

The expansion programme of Rack Centre's Lagos campus is the largest in West Africa and will create a facility with 14.5MW of IT power and 7200 square metres of lettable space.

This expansion is market leading and will set the bar on hyperscale data centre initiatives in the region.

WHY CHOOSE US

- Reliability: Tier III Constructed Facility Certified with 100% uptime, zero downtime since launch in October 2013.
- Carrier Neutral Environment: Not owned by a carrier, never compete with telco and cloud services customers and unrestricted interconnects between customers.
- Location: 30 metres above sea level in a secure private estate highest point in Lagos.
- Scalability: We are providing reliable, secure and scalable infrastructure to Global cloud companies. Customers can grow their footprint at Rack Centre.

WEST AFRICA'S LEADING TIER III CARRIER NEUTRAL DATA CENTRE

CARRIER NEUTRALITY

Rack Centre is Carrier Neutral. This means Rack Centre is not owned by, or affiliated with, any telecommunications carrier, ISP or Managed Service Provider and will never compete with its customers who offer telecommunications and cloud services.

Our carrier neutral environment offers unrestricted interconnects between customers, as it allows them to manage traffic to get better value, lower latency and higher resilience.

We have created an open market for partnerships between customers, networks and cloud and content providers and managed service providers to conduct business seamlessly.

Our Free cross connections to the Internet Exchange Point of Nigeria accelerates performance by localising domestic traffic.

With over 40 carriers, ISPs and Content Delivery Networks, Rack Centre offers a wide and unrestricted choice of services for its customers. Fibre access to the facility is through three diverse routes and includes all five active undersea cables on the Atlantic coast of Africa (WACS, Glo, ACE, Mainone and SAT3).

INTERCONNECT ECOSYSTEM

The only carrier neutral data centre to be Tier III constructed certified by the Uptime Institute

Heterogenous ecosystem of leading cloud platforms

ABOUT US

Founded in 2012, Rack Centre is the only carrier neutral Tier III Constructed Facility Certified data centre in Africa and focuses solely on providing best in class data centre colocation services and unrestricted interconnect between carriers and customers. This gives customers a technically superior, physically more secure and lower cost environment for their information systems.

Rack Centre's carrier neutrality allows customers to manage traffic to get better value, lower latency and higher resilience, and creates an open market for partnerships between customers, networks, cloud and content providers, the Internet Exchange Point of Nigeria and managed service providers.

Rack Centre clients include over 40 telecommunication carriers, Internet Service Providers (ISPs), global

Tier 1 networks and pan Africa international carriers, including direct connection to all 5 undersea cables serving the South Atlantic Coast of Africa and every country on the Atlantic coast of Africa.
