

1.0.CloudFlex List of Services Live at Rack Centre.

SN	List of Services Live at Rack Centre.	Service Code name	Solution Offerings	Solution Service Description
1	Infrastructure as-a-service	IaaS	➤ Cloudflex Elastic Compute Virtual Machine V3	Virtual servers allow users to deploy, manage, and maintain OS and server software. Instance types provide combinations of CPU/RAM. Users pay for what they use with the flexibility to change sizes.
2	Storage-as-a-Service	StaaS	➤ Cloudflex Elastic Cloud Storage S3	Automated data storage that allow users simply select what and when they want to backup, and our service does all the rest. We ensure long term data storage and stability and security.
3	Backup-as-a-Service	BaaS	➤ Cloudflex Backup	Backup and archival solutions allow files and folders to be backed up and recovered from the cloud, and provide off-site protection against data loss. There are two components of backup – the software service that orchestrates backup/retrieval and the underlying backup storage infrastructure.
4	Disaster Recovery-as-a-Service	DRaaS	➤ Cloudflex Disaster Recovery	Automates protection and replication of virtual machines. Offers health monitoring, recovery plans, and recovery plan testing.
5	Colocation as-a-service	CaaS	➤ Managed Colocation	Colocation (also known as 'co-location' or 'colo') is the practice of housing privately-owned servers and networking equipment in

				<p>a third-party data center. Instead of keeping servers in-house, in offices or at a private data center, companies can choose to 'co-locate' their equipment by renting space in a colocation center allowing you to eliminate the capital expenditures (CAPEX) of building and maintaining your own facility while allowing you to retain ownership and complete control of your physical servers.</p>
6	Platform-as-a-Service	PaaS	<ul style="list-style-type: none">➤ Echo VPS➤ Web Digital Workspace H2	<p>Cloudflex platform as a service (PaaS) is a complete development and deployment environment in the cloud, with resources that enable you to deliver everything from simple cloud-based apps to sophisticated, cloud-enabled enterprise applications.</p>

2.0. List of Services not Live in Rack-Centre but in Roadmap.

SN	Services in the Roadmap	Service Code Name	Service Description
1	SaaS Contact Centre Solution, Jitsi	CN AND JIT	Still in development, will be ready early Q1, 2021.

3.0. CloudFlex Unique Service Value Proposition to Clients.

- We are an Indigenous Cloud Computing Solution Provider.
- No FX Required to come onboard any of your services
- On Demand Robust and Scalable Infrastructure as-a-Service
- Pay-Per-User (You are only charged for what you consume).
- Hybrid Option
- High Availability
- 24/7 Local support
- Consultancy & Advisory Service
- OPEX no (CaPex) Capital Investment not required
- Risk free Financial model
